Microsoft Teams Contact Centre

Digital and Voice Customer Interaction using Microsoft Teams

Geomant has a long track record of successfully deploying solutions for Microsoft Unified Communications platforms, including Skype for Business. We are now bringing our experience to organisations looking to get maximum return on investment for their Microsoft 365 teamwork solution.

Buzzeasy from Geomant transforms Teams into a multichannel contact centre, enabling voice and digital customer interaction. Utilising the Teams infrastructure, we have added multiple inbound and outbound interaction channels to extend collaboration beyond the enterprise.

With the huge and increasing adoption of Microsoft Teams as a collaboration hub (112 million daily active users, and growing), extending its capabilities to customer interaction offers huge benefits.

Why Buzzeasy for Teams?

- Complements Microsoft Teams, providing contact centre functionality native to your existing collaboration platform.
- Removes any silos in your operation by providing a consistent experience for your customers on any channel.
- Future-proof solution Buzzeasy is highly flexible with multiple modules meaning you can scale features up or down to meet your business needs.
